

Your visit to the Randall Museum

Are you excited?

Do you know what you'll be learning about?

Here are a few questions to get you started thinking.

Before San Francisco

1. The environment of California was very different before people arrived. Can you think of one change that has occurred?

2. Before the big city of San Francisco came to be there were only a handful of people. Do you know who they were?

3. What kind of plants and animals lived here?

4. European people came to North America and dramatically changed the way of life in early California. They brought new technologies with them. Can you think of one they may have brought?

5. How has California changed in just the last few years?

If you don't know the answers to these questions- not to worry. We'll help you when you visit The Randall.

What's my goal for this field trip? (Having fun, for sure!)
