WHAT YOU NEED:

1. the big side cut off a paper bag
2. craypas, crayons or permanent felt tip pens
3. scissors
4. sharpie
5. white glue, watered down
6. paint brush for glue
7. plastic bag

FAST AND EASY BEE COLLAGE

1. Draw 3 round shapes and cut them out. These are your bee body parts.
2. Color them. Draw the yellow stripes before the black ones to keep your yellow bright.
3. Turn them over and tape them together as shown. Set the bee aside.
4. Draw a circle on the paper bag.

5. Draw big flower petals. It’s okay if they go off the edges.

6. Color the flower in.

7. Decide where you want to glue your bee.

8. Use a paintbrush to paint glue in the bee spot.

9. Put the plastic bag over the bee and rub it down. Remove the plastic.

10. Smooth a clean part of the plastic bag over your bee body, and trace a tear drop shaped wing.

11. Double your plastic and cut two wings out at one time.

12. Trace the edges of your wing.
13. Make squiggles on the wings.

14. Back at the bee, draw two antennae.

15. Draw six legs. They come out of the middle body part.

16. Glue down the wings.

You made a beautiful Bee Collage. We’d love to see your work!
