

# Scorpion Anatomy

Study this drawing of a scorpion. Notice all the parts that make up the scorpion. On the following page write the names of the parts where indicated.

## FUN FACT

The scorpion is nocturnal, often hiding during the day under rocks and in holes in the ground before emerging at night to feed.

# Scorpion Anatomy

Write the names of the body parts on the lines below.

## FUN FACT

Scorpions can eat a massive amount of food in one meal. Their large food- storage organs, together with a low metabolism rate and an inactive lifestyle, mean that if necessary they can survive 6-12 months without eating again.
