

Randall Museum

199 Museum Way, San Francisco, CA 94114

Dear Teachers:

Thanks so much for allowing us to work with your students. We would greatly appreciate your feedback regarding the effectiveness of our presentations. Your input helps us to shape and refine our science programs for San Francisco children.

Please comment on the following:

Your topic _____ Grade level _____

Was the material appropriate for your grade and preparation?

Was the objective of the lesson clear to you?

Which concepts most impressed your kids?

What else worked?

How would you change things? (concepts, activities, presentation)

Is there any other science topic for your grade that you would like us to develop?

Thanks again for your assistance!
